PRESENTING A UNIQUE GIFT PRODUCT

EVENTS - PERIODS - CONTEXT

Its basic principle is straightforward:
2 meters = 2 000 millimeters = 2000 years of history.
The METERMORPHOSEN® "Historic Folding Rule"
presents a sophisticated selection of essential data.
It provides a survey of the past 2 000 years
of social history and the histories of thought and art.

The Event Side

On the event side, each centimeter
represents ten years of world history.
It recalls significant data from
the Roman times until
the Millennium,
from Jesus Christ
to the Internet.

The Periods Side

The back view of the
"Historic Folding Rule" presents world
history divided into its fundamental
periods. Entries on mind, powers
and the arts on a backdrop ranging
from LATE ANTIQUITY until
the MODERN TIMES
provide a context
for individual
events.
